25X1

1. The destroyed railroad bridge south of Ruegenwaldermunde (P 55/1 66) has been replaced by a modern drawbridge. The railroad tracks are in good condition. Traffic on the line, though irregular, meets all requirements for transport of fish. *

25X1

- * Comment. The bridge is located between Ruegenwalde (Darlowo) and the port near the terminal of a single-track branch line which branches off near Schlawa from the Stettin-Belgard - Stolp - Gdynia main line. The line is of only local importance for the fishing port of Ruegenwalde.
